

Composite Loans & Bridge Finance

UFC's unique Composite Loan Product is designed to meet the varied financial needs of businesses. Designed to ensure timely funding for expansions, diversification and working capital management, our Composite Loans are especially helpful for small and medium enterprises, particularly, retailers, wholesalers, manufacturers or service providers.

The Bridge Loan Product is an intermediate financing arrangement designed to help tide over cash flow gaps especially in the midst of a project implementation. The product is ideally suited for large and medium business in construction and manufacturing.

Contracting companies with experience in the relevant field are eligible to apply.
